Solutions On Fire

“ADDRESSING AND SATISFYING THE NEEDS AND QUESTIONS REGARDING FIRE SAFETY”

In the news this month >>>

> Arsonist has been sentenced to 11-and-a-half years

The fire which caused an estimated £3 million worth of damage to a shop that has been on site for over 140 years. The blaze was so fierce that it spread from the shop across the street to residential properties.. SEE VIDEO

> A block of flats has been closed down due to fire safety hazards

“Upon discovering the state of this property, we had no alternative but to use our authoritative emergency closure powers to shut this property”

> A fire wrecks Sheffield ski village

Investigation as to the cause of fire is taking place, there are worries that acetylene cylinders on site could explode

> Fire safety is a hot topic in Hertfordshire since 2 thatched cottages burnt down

“This incident highlights the potentially live saving properties of smoke alarms”

Fines & Convictions

> Hotel manager convicted of 10 fire safety offences and a notice served preventing anyone staying at the hotel

The convictions were;

1. Fire alarms were faulty
2. Fire extinguisher empty
3. Escape routes were inadequate
4. No emergency lighting
5. A fire door had been removed
6. Walls knocked through without the consent of building regulations
7. No Fire Risk Assessment
8. No staff training

> A landlord has been jailed for 4 months and ordered to pay £10,000 costs after pleading guilty to three offences

Convictions included: make a suitable and sufficient fire risk assessment, ensure that, in the event a danger, it was possible to evacuate the premises as quickly and as safely as possible, provide sufficient detectors and alarm at the premises.

> Landlord of a HMO fined for “woefully inadequate” precautions are fatal fire

He had to pay £16,000 following a fire at one of his properties in which in a tenant died.

> A landlord has been fined almost £8500 for breaching fire safety laws

No fire risk assessment, no fire alarms, no fire doors, no emergency lighting...no chance!

Managing Fire Safety Training

“Fire safety training courses suitable for the Fire Safety Manager & Responsible Person

The Regulatory Reform (Fire Safety) Order 2005 places responsibility for the management of fire safety squarely on the shoulders of what is termed as the “Responsible Person”.

In fulfilling their duties under law the Responsible Person may appoint one or more “Competent Persons” to assist. Commonly these persons are known as the Fire Safety Manager.

Our Managing Fire Safety Training is specifically designed for the manager who has control of a site, premises or zone but is unsure of their duties under law.

We understand that the management of fire safety can often become a burden and we aim to empower you so as to render your duties and responsibilities in a controlled and relatively stress free manner. Regular maintenance, producing procedures and policies, and

“We aim to empower you so as to render your duties and responsibilities in a controlled and stress free manner”

acting on your significant findings of your fire risk assessment are all aspects of managing fire safety in the workplace and covered in detail within this course.

This course has been developed by Solutions in conjunction with corporate clients and fire safety experts. Our Fire Risk Assessment Guide that you will receive on the day will be a useful starting point, to direct and record the significant findings in your organisation.

Highly interactive training course will cover in detail;

- ⇒ The legal requirements
- ⇒ Fire precautions & fire safety policy
- ⇒ Fire risk assessment
- ⇒ Reducing the risk and spread of fire
- ⇒ Managing the means of escape
- ⇒ Safety signs
- ⇒ Emergency lighting
- ⇒ Extinguishers & fire fighting
- ⇒ Detection equipment
- ⇒ Maintenance
- ⇒ Procedures in the event of a fire
- ⇒ Staff Training

Other benefits of this course include;

- ⇒ Certificate of attendance
- ⇒ Fire risk assessment guide

HOST YOUR OWN FREE TECHNICAL SIGN PRESENTATION

Problem

With the forthcoming introduction of EN ISO 7010 Graphical Symbols—Safety Colours and Safety Signs used in workplaces and public areas, there clearly appears to be numerous buildings that will be expected to address the issue of their safety signs in order to meet the requirements of this European Norm.

Solution

To that end I am pleased to extend the offer of a **Free Technical Presentation** which would include the following;

- ⇒ The forthcoming changes and implications of the International Safety Sign Standard ISO 7010, which will become a European Norm
- ⇒ Code of Practice for Means of Escape Route signing BS 5499 Part 4
- ⇒ Correct Means of Escape signs in support of emergency lighting
- ⇒ Signs to satisfy the requirements of a formal Fire Risk Assessment

The presentation will also provide ways that organisations can meet requirements and at the same time have the potential to reduce energy consumption and maintenance costs, particular in connection with emergency lighting.

Our Fire Safety Communication expert has over 20 years experience. He has successfully completed a number of courses and has devised and implemented training courses to both Local Government and Commercial Organisations.

Arrangements

A JALITE representative will come to visit you on a date agreed between Solutions Fire Safety Ltd and yourselves, to deliver a 1—2 hour presentation discussing all of the points mentioned above.

The presentation is *free of charge*, all we ask is that an audience of approximately 10 people are available for the day. We also request that you provide your own projector, if possible.

Other features & benefits

- ⇒ Certificates of attendance for continual training purposes can be supplied
- ⇒ Packs of useful information are issued to individual attendees
- ⇒ You have the opportunity to ask our safety signs expert any questions that you may have

Contacting Us is so simple!

Should you wish to arrange your free fire safety sign presentation then please contact us by the following means to make further arrangements;

Tel: 0845 601 2632
Email: service@solutionsfire.co.uk
By Post: PO BOX 5963, Basildon, Essex, SS14 3GW

An authorised distributor of JALITE AAA Photoluminescent Fire Safety Signs and Related Products. Catalogues can be sent to you on request. Just contact us on any means below to receive yours today!
